How does El Padrino work?

1. Venue Selection

Finding the perfect setting is the first step to start creating each and every moment. We listen to your needs, style, and budget, and propose exclusive spaces that reflect your essence and fit the vision of your big day. We have over a hundred options, so we have no doubt we will find the ideal venue.

2. Planning Process

We plan with precision. We design a detailed timeline, select the best vendors, and take care of every aspect of the process. Our goal is for everything to flow naturally while you enjoy the journey.

3. Your Wedding Script

Every wedding has its story, and together we write yours. From the guests' arrival to the last dance, we create a unique script that ensures all elements and people involved know step-by-step what will happen, what they need to do, and where to be at all times. Additionally, we define any requirements needed for the wedding day. Everyone is aligned.

4. Coordination of Your Day

Your wedding day is your moment to enjoy. Meanwhile, our team is in every corner, overseeing every moment and every detail, making sure everything goes perfectly. You just have to live it; we take care of the rest.

Step by step organization

Initial call to determine what we want.

Venue search: comparison of at least five places. Venue tour of the selected options during one morning. Confirmation and booking.

Selection and comparison of proposals from the main vendors: catering, decor, and music. Booking of the chosen option.

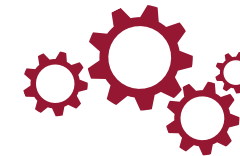

Evaluation of recommendations from relevant vendors: photography and video, styling, transportation (guests and couple), live music, officiant, cake, childcare.

Overall review and script preparation.

Detailed planning with each vendor and service until all details are finalized.

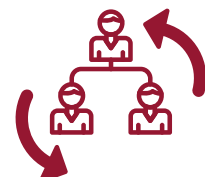

Budget control through a pivot table. Management of payments according to specific terms.

Entertainment proposals: artists, photo booth, performances, games, dance, masters of ceremonies, surprises, etc.

Final meeting to define all the wedding details.

Review and briefing with all vendors.

Full coordination on the wedding day.

Post-wedding evaluation and meeting (feedback) and request for review.

Important points to keep in mind during the organization process

1. Communication with the Wedding Planner

We strive to respond to your questions and requests within a maximum of 48 hours. Please note that our working hours are Monday to Friday, from 9:30 a.m. to 6:30 p.m. (Spanish time).

Regarding supplier-related inquiries, we handle them as quickly as possible. However, please remember that we depend on their availability to respond. Although we maintain direct and efficient contact with them, sometimes they may need a bit more time to provide the requested information. We appreciate your understanding and patience in these cases.

2. Meetings and Venue Visits

To ensure proper coordination with suppliers and the venue, it is essential to schedule meetings and visits as far in advance as possible.

During high season, from April to November, event spaces are usually booked in the afternoons due to the frequency of events. For this reason, we recommend scheduling visits on weekdays and in the mornings during these months.

In low season, from December to March, weekends are typically rest days for staff, and working hours usually run from Monday to Friday until 6:00 p.m.

Therefore, we suggest organizing visits from Monday to Saturday, avoiding holidays, to ensure the necessary availability.

3. Hiring Suppliers

It is important to book key suppliers such as catering, decor, and music well in advance, as well as specific stylists, photographers, or musicians, to guarantee their availability on your wedding day.

At El Padrino Weddings, we recommend working with our trusted suppliers, selected for their professionalism and excellence, to ensure your peace of mind and a smooth experience.

Of course, you are free to choose whichever suppliers you prefer. However, our recommendations will always be aimed at your safety and satisfaction because your interests are also ours.

4. Menu Tasting

It is essential to schedule the menu tasting as far in advance as possible. Although catering services are usually flexible and strive to accommodate your needs, please keep in mind that during high season, it can be difficult to find an available date.

For this reason, we recommend holding the tasting preferably between October and April, when availability is greater and the process can be managed more easily.

5. Accommodation and Related Events

We will provide accommodation options for your guests through our partner hotels, which offer discounts or exclusive benefits for our clients. These options include hotels, rural guesthouses, and private homes, which we will present to you so you can take advantage of these perks if you wish.

In exceptional cases, a major tour operator may offer lower prices for the same dates and accommodations due to their specific conditions. Neither we nor the hotels can match those rates, as they depend on agreements exclusive to the tour operator.

Please note that we are not a travel agency or tour operator, and our accommodation offerings are limited to our partners. Our sister company, BIMAI Events, may be able to assist you with this.

6. Other Details to Consider

If you wish to handle some personalized details for your wedding, such as favors or drinks for before the ceremony, we will be happy to help oversee them on the day of the event.

If you also need to transport these items or store them in advance, it will be necessary to coordinate this with the decoration company or the venue. For this reason, we recommend managing these aspects several months ahead to ensure everything is perfectly organized.

Savannah & Jake

Saying that Jaime made our wedding day special is simply an understatement. We can't put into words how much we recommend Jaime (but we'll try!). We had never visited our venue, or even Spain, coming from the U.S., and we had very little oversight when it came to making wedding decisions – but Jaime took care of everything and made the decisions easy for us.

Communication with Jaime was straightforward, timely, and thorough – everything you want in a wedding/event planner. On our wedding day, he had everything under control. We, as the couple, had little to worry about except enjoying the day and being present with our friends and family.

Our journey wouldn't have been half of what it was without his guidance and expertise. Not only that, Jaime is easy to talk to, understanding, and overall a very kind person. We are so grateful for Jaime and enthusiastically recommend him as a wedding and event planner.

Jaime has an amazing sensitivity to understand what you're looking for, even when you can't fully express it, and Jupe has a special gift for coordinating every detail on the day of the event with contagious energy and a smile.

Our wedding day was absolutely magical, and we know it wouldn't have been possible without them. We felt supported, understood, and pampered every step of the way. If we got married a thousand times over, we wouldn't hesitate to choose El Padrino to be by our side.

Thank you, Jaime and Jupe, for making our wedding the happiest day of our lives.
